Sub: Posting of Tender call notice in State Govt. Website.

Sir,

I am directed to say that the provisions of Rule-9 (c) of Appendix-IX of OPWD code Vol-II, amended vide Works Department letter No.17823 dated 11-10-2006, prescribe that the tender call notice along with bid documents shall be posted in the website where the cost of tenders for works is more than Rs.10.00 lakhs. The provisions aim at inviting more response from bidders so as to make the bidding process competitive. In respect of tenders costing Rs.10.00 lakhs or less the bidding documents are not being put in website. As such more bidders fail to have information about such tenders and the bidding process becomes less competitive.

To obviate such situations hence forward all tenders for works relating to Department of Water Resources, having estimated cost of more than Rs.5.00 lakhs shall be posted in State Govt. Website with down loading facility.

2007
